Claims 1-7 and 18-25 are presented for examination.

The amendments and remarks filed on March 5, 2005 have been received and entered.

Claims 1-7 and 18-25 are rejected under 35 U.S.C. 103 (a) as being unpatentable over Muller et al. (US 6,020,358) in view of Tobinick (US 6,428,787) and D'Amato (US 6,235,756) for the reasons set forth on pages 2-5 of the office action of November 13, 2008.

Applicant's arguments have been carefully considered, but are not deemed to be persuasive. Applicant's main arguments are drawn to the numerous compounds covered by the genus taught in the prior art, and there is no motivation for one skilled in the art to pick the claimed compound from the numerous compounds covered by the prior art. It is the examiner's position that all the compounds covered by the genus of the prior art is expected to have TNF alpha inhibitory activity based on sharing the same basic structure. Therefore, a person skilled in the art can pick any compound encompassed by the genus of the prior art and expect such compound to have TNF alpha inhibitory activity. The secondary reference clearly teaches compounds having TNF alpha activity are used for the treatment of macular degeneration. Therefore, it is expected that the claimed compound to be effective in treating macular degeneration. The only unobvious element remaining for applicant to demonstrate is to compare the claimed compound with the closest structurally similar TNF alpha inhibitor disclosed by the prior art and to show advantage in terms of treating macular degeneration. In the absence of such showing the prior rejection sustains.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
